

MICHAEL ANDERSON

GERIATRIC PSYCHIATRIST

PROFILE

Compassionate Clinical Psychiatrist with 8 years of experience specializing in geriatric psychiatry. I focus on the unique mental health challenges faced by the elderly, including dementia and depression. My approach combines empathy with evidence-based treatment to ensure that my patients feel heard and understood. I am adept at conducting comprehensive assessments and developing personalized treatment strategies that consider the physical and emotional complexities of aging.

EXPERIENCE

GERIATRIC PSYCHIATRIST

Sunrise Senior Living

2016 - Present

- Managed psychiatric care for over 150 elderly patients with cognitive impairments.
- Developed and implemented a memory care program that improved resident engagement by 35%.
