MICHAEL ANDERSON

CLINICAL RESEARCH ASSOCIATE

Detail-oriented Clinical Research Associate with a strong foundation in neuroscience and over 4 years of experience in clinical trial management. My expertise extends to regulatory compliance, data management, and patient interaction, all while maintaining a focus on quality and ethical standards. I have successfully contributed to the initiation and execution of clinical studies aimed at understanding neurological disorders.

PROFESSIONAL EXPERIENCE

NeuroScience Solutions

Mar 2018 - Present

Clinical Research Associate

- Managed all aspects of clinical trials focusing on neurological disorders, ensuring protocol compliance.
- Conducted site selection and feasibility assessments to identify suitable research sites.
- Monitored patient safety and data integrity through regular site visits and audits.
- Coordinated the collection and analysis of clinical data, maintaining meticulous records.
- Collaborated with investigators to develop study protocols and informed consent documents.
- Trained site staff on data collection and regulatory requirements, enhancing site performance.

Cognitive Research Institute

Dec 2015 - Jan 2018

Clinical Trial Assistant

- Supported clinical trial operations, focusing on data entry and patient scheduling.
- Assisted in the preparation of regulatory submissions and study documentation.
- Engaged in patient follow-up to ensure adherence to study requirements.
- Maintained databases for tracking patient enrollment and trial progress.
- Collaborated with cross-functional teams to facilitate smooth study execution.
- Participated in team meetings to discuss project milestones and challenges.

ACHIEVEMENTS

- Improved data accuracy by 25% through implementation of new data monitoring processes.
- Received 'Best New Employee' award for outstanding contributions to trial management.
- Contributed to a successful study publication in a leading neuroscience journal.
