WORK EXPERIENCE

Clinical Research Manager 2020-2023
Cardiovascular Health Institute

- Oversaw clinical trials investigating new therapies for hypertension and heart failure.
- Developed and implemented patient recruitment strategies, achieving a 40% increase in enrollment.
- Managed trial budgets and timelines, ensuring projects were completed on schedule.
- Collaborated with cardiologists to refine study protocols and improve patient safety.
- Analyzed clinical data to assess treatment effectiveness and reported findings to stakeholders.
- Trained and mentored clinical staff, fostering a culture of continuous improvement.

Clinical Research Associate 2019-2020
Heart Health Research Foundation

- Supported the execution of clinical trials related to innovative cardiovascular devices.
- Monitored trial sites to ensure compliance with regulatory and ethical standards.
- Conducted patient assessments and collected data for analysis.
- Developed training materials for investigators and site staff.
- Maintained accurate trial documentation for regulatory submissions.
- Facilitated communication between clinical teams and external stakeholders.

ACHIEVEMENTS

- Contributed to the development of a new cardiac drug, which is currently in Phase III trials.
- Published multiple articles in cardiovascular journals, enhancing research visibility.
- Received the 'Excellence in Clinical Research' award for outstanding trial management.
