- French

### EDUCATION

**BACHELOR OF SCIENCE IN  
INFORMATION TECHNOLOGY, NEW  
YORK UNIVERSITY, 2017**

### ACHIEVEMENTS

- Successfully launched a patient monitoring app with over 10,000 downloads within the first month.
- Received recognition for outstanding leadership and project delivery.
- Improved software testing efficiency by 30% through process optimization.

### WORK EXPERIENCE

#### SOFTWARE DEVELOPMENT MANAGER

Patient Care Technologies

2020 - 2025

- Led a team of developers in creating a mobile application for patient monitoring.
- Coordinated with clinical teams to gather requirements and ensure software alignment with user needs.
- Implemented security measures to protect sensitive patient data in compliance with regulations.
- Managed project timelines and deliverables, resulting in a 20% improvement in efficiency.
- Conducted regular performance reviews and provided mentorship to junior team members.
- Presented project outcomes to stakeholders, leading to increased investment in technology resources.

#### CLINICAL SOFTWARE TESTER

Digital Health Solutions

2015 - 2020

- Executed comprehensive testing protocols for clinical software applications.
- Collaborated with developers to identify and resolve software defects prior to release.
- Documented testing results and provided actionable feedback to improve software quality.
- Participated in user acceptance testing, ensuring software met clinical standards.
- Maintained detailed records of test cases and outcomes for compliance audits.
- Trained new testers on best practices in software testing methodologies.
