## SKILLS

- Patient Management Systems
- User Interface Design
- Data Analytics
- Software Development
- Agile Methodologies
- Compliance

## EDUCATION

**BACHELOR OF SCIENCE IN COMPUTER SCIENCE, UNIVERSITY OF FLORIDA, 2019**

## LANGUAGE

- English
- Spanish
- German

## ACHIEVEMENTS

- Successfully improved patient record retrieval times by 50% through software enhancements.
- Received 'Employee of the Month' for outstanding contributions to project success.
- Contributed to a project that won a national healthcare technology award.

# Michael Anderson

## CLINICAL SOFTWARE DEVELOPER

Results-oriented Clinical Software Developer with significant experience in the design and implementation of software solutions for healthcare organizations. Expertise in developing applications that enhance clinical workflows, improve patient data management, and support healthcare professionals in delivering high-quality care. Known for an analytical approach to problem-solving and a commitment to leveraging technology to drive operational improvements.

## EXPERIENCE

### CLINICAL SOFTWARE DEVELOPER

Innovative Health Systems

2016 - Present

- Developed a comprehensive software platform for managing patient records and appointments.
- Collaborated with healthcare providers to design user-friendly interfaces.
- Implemented data analytics features to track patient engagement metrics.
- Conducted thorough testing to ensure software reliability and performance.
- Provided ongoing support and training to end-users, enhancing system adoption.
- Maintained compliance with industry standards and regulations throughout the development process.

### SOFTWARE ENGINEER

NextGen Healthcare

2014 - 2016

- Participated in the development of a cloud-based health management application.
- Assisted in coding and debugging software to enhance functionality.
- Engaged in regular meetings with clients to gather feedback and implement improvements.
- Documented software specifications and user manuals for future reference.
- Contributed to the development of testing protocols to ensure software quality.
- Supported deployment efforts, ensuring smooth transitions to new software versions.
