EDUCATION

Bachelor of Science in Health Informatics

University of North Carolina

2020

SKILLS

- Chronic Disease Management
- Java
- SQL
- User Training
- Application Performance Monitoring
- Software Development

LANGUAGES

- English
- Spanish
- French

Proactive Clinical Software Developer with a strong focus on the integration of technology into healthcare practices. Extensive experience in developing applications that facilitate better patient care and streamline clinical processes. Known for a methodical approach to software development, emphasizing thorough testing and user feedback to refine products. Possesses a solid understanding of clinical workflows and the challenges faced by healthcare providers.

💼 WORK EXPERIENCE

Clinical Application Developer   2020-2023

Smart Health Solutions

- Developed an application to monitor chronic disease management, improving patient adherence by 30%.
- Collaborated with healthcare teams to identify software requirements and priorities.
- Utilized Java and SQL to create secure and efficient software solutions.
- Conducted user training sessions to facilitate effective software adoption.
- Implemented feedback mechanisms to gather user insights for future enhancements.
- Monitored application performance, making adjustments as necessary to optimize user experience.

Software Development Intern   2019-2020

Tech Health Group

- Contributed to the development of a patient engagement platform, increasing user sign-ups by 40%.
- Assisted in coding and testing software applications to ensure functionality.
- Participated in team meetings to discuss project milestones and challenges.
- Documented software processes for knowledge transfer and future reference.
- Engaged in research to identify best practices in healthcare software development.
- Supported the deployment of new features and updates in a timely manner.

⭐ ACHIEVEMENTS

- Improved patient adherence rates through software solutions recognized by healthcare providers.
- Achieved a 100% success rate in project deadlines during internship.
- Contributed to a team project that received a regional technology award.
