

Michael

ANDERSON

CLOUD SECURITY ENGINEER

Dedicated Cloud AI Platform Engineer with a focus on cybersecurity and data protection. With over 6 years of experience in the tech industry, I specialize in designing secure cloud infrastructures for AI applications. My background includes working with various cybersecurity tools and frameworks to ensure that AI models are deployed safely and efficiently.

SKILLS

- Cloud Security
- AWS
- Azure
- Python
- Data Protection
- Cybersecurity Frameworks

LANGUAGES

- English
- Spanish
- French

EDUCATION

**BACHELOR OF SCIENCE IN
CYBERSECURITY, UNIVERSITY OF
MARYLAND**

ACHIEVEMENTS

- Recognized as 'Employee of the Year' for outstanding contributions to cloud security initiatives.
- Successfully led a project that improved compliance rates by 50%.
- Achieved Certified Cloud Security Professional (CCSP) certification.

WORK EXPERIENCE

CLOUD SECURITY ENGINEER

CyberSafe Technologies

2020 - 2025

- Developed security protocols for AI applications hosted on cloud platforms, reducing vulnerabilities by 40%.
- Implemented encryption and access control measures to protect sensitive data.
- Conducted security audits and vulnerability assessments on cloud infrastructures.
- Collaborated with development teams to integrate security best practices in the CI/CD pipeline.
- Trained staff on cybersecurity awareness and best practices for cloud environments.
- Participated in incident response planning and execution for cloud-related security breaches.

CLOUD SOLUTIONS DEVELOPER

DataGuard Corp.

2015 - 2020

- Designed cloud-based solutions that prioritize data security and compliance.
- Implemented monitoring tools for real-time threat detection in cloud environments.
- Worked with cross-functional teams to ensure secure API integrations.
- Optimized cloud configurations to enhance security while maintaining performance.
- Developed documentation for security protocols and procedures.
- Played a key role in achieving compliance with GDPR and HIPAA regulations.
