SKILLS

- AWS
- Azure
- Google Cloud
- Python
- Bash
- ELK Stack

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, UNIVERSITY OF FLORIDA, 2016

ACHIEVEMENTS

- Received the Rising Star Award for exceptional performance in cloud projects.
- Successfully migrated on-premises applications to the cloud, enhancing scalability and performance.
- Contributed to a project that resulted in a 30% reduction in operational costs.

PROFILE

Results-driven Cloud Automation Engineer with 5 years of experience specializing in cloud orchestration and automation frameworks. Skilled in deploying and managing cloud-native applications and infrastructure on AWS, Azure, and Google Cloud Platform. Proficient in scripting languages such as Python and Bash to automate routine tasks, thereby increasing operational efficiency. Excellent problem-solving abilities, with a focus on delivering high-quality, reliable cloud solutions.

EXPERIENCE

CLOUD AUTOMATION ENGINEER

Innovative Cloud Solutions

2016 - Present

- Developed automated deployment scripts using Python and AWS CLI, reducing deployment time by 40%.
- Implemented a centralized logging system using ELK stack to enhance troubleshooting capabilities.
- Collaborated with security teams to integrate security checks into the CI/CD pipeline.
- Conducted performance testing on cloud applications, leading to a 25% improvement in response times.
- Managed cloud resources using Terraform, achieving cost savings through efficient resource utilization.
- Facilitated workshops on cloud best practices for junior engineers.

SYSTEMS ADMINISTRATOR

Tech Solutions Co.

2014 - 2016

- Maintained cloud infrastructure for multiple clients, ensuring 99.9% uptime.
- Automated routine maintenance tasks using Bash scripts, improving operational efficiency.
- Provided technical support for cloud-related issues, resolving 95% of tickets on first contact.
- Implemented backup and disaster recovery solutions for critical applications.
- Monitored system performance and implemented optimizations based on analytics.
- Contributed to knowledge base articles and documentation for team processes.
