SKILLS

- AWS
- Azure
- Python
- PowerShell
- GitLab
- CI/CD

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, UNIVERSITY OF TEXAS, 2017

ACHIEVEMENTS

- Awarded Employee of the Month for outstanding contributions to cloud automation projects.
- Successfully automated deployment processes, halving the time required.
- Recognized for providing exceptional support during cloud migrations.

WORK EXPERIENCE

CLOUD AUTOMATION ENGINEER
FutureTech Solutions
2020 - 2025

- Developed and maintained automated scripts using Python for cloud resource management.
- Implemented CI/CD pipelines using GitLab, resulting in faster release cycles.
- Collaborated with cross-functional teams to define cloud architecture standards.
- Monitored cloud environments for performance issues, leading to a 20% reduction in downtime.
- Documented cloud processes and automation procedures for team reference.
- Participated in code reviews to enhance code quality and maintainability.

JUNIOR CLOUD ENGINEER
Tech Forward
2015 - 2020

- Assisted in the deployment of cloud applications, ensuring adherence to best practices.
- Automated backup procedures using PowerShell, enhancing data protection.
- Supported the migration of on-premises applications to cloud platforms.
- Monitored system performance and reported issues to senior engineers.
- Contributed to the development of internal documentation for cloud processes.
- Engaged in continuous learning to stay updated with cloud technologies.
