EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, TECH UNIVERSITY

ACHIEVEMENTS

- Developed a cloud backup solution that saved the company $100,000 annually.
- Recognized for outstanding performance in achieving 99.9% data availability.
- Played a key role in a project that improved backup success rates by 30%.

PROFILE

With a strong foundation in cloud infrastructure and backup solutions, I am a Cloud Backup Engineer possessing over 5 years of experience in the telecommunications industry. My expertise lies in implementing and managing cloud-based backup systems that ensure data availability and security for large-scale operations. Throughout my career, I have been involved in developing strategies to enhance backup efficiency while minimizing costs.

EXPERIENCE

CLOUD BACKUP SOLUTIONS ENGINEER

Telecom Services Corp.

2016 - Present

- Developed and executed backup strategies that improved data retrieval speed by 50%.
- Implemented a new cloud backup tool that enhanced data security and compliance with industry regulations.
- Monitored cloud storage usage and provided recommendations to optimize costs.
- Collaborated with cross-functional teams to integrate backup solutions into the telecommunications infrastructure.
- Provided training sessions for staff on cloud backup best practices and security protocols.
- Conducted regular audits of backup processes to ensure adherence to compliance standards.

BACKUP ADMINISTRATOR

Global Telecom

2014 - 2016

- Administered cloud-based backup systems for over 300 clients in the telecom sector.
- Implemented monitoring tools that reduced backup failures by 20%.
- Assisted in the migration of legacy systems to modern cloud solutions.
- Worked closely with IT security teams to enhance data protection measures.
- Maintained up-to-date documentation of backup configurations and recovery plans.
- Facilitated incident response training for the technical support team.
