I am a Cloud Computing Consultant with a focus on educational institutions, leveraging 8 years of experience to help schools and universities adopt cloud technologies that enhance teaching and learning experiences. My work involves understanding the unique challenges faced by educational organizations and developing tailored cloud solutions that meet their specific needs.

WORK EXPERIENCE

Educational Cloud Consultant | EduTech Solutions   Jan 2022 – Present

- Implemented cloud-based learning management systems for over 20 educational institutions.
- Developed training programs for educators on cloud tools and best practices.
- Collaborated with IT departments to ensure seamless integration with existing systems.
- Conducted assessments to identify cloud readiness and needs for schools.
- Provided ongoing support and troubleshooting for cloud applications.
- Created documentation for compliance with educational standards.

IT Consultant | School Innovations Group   Jul 2019 – Dec 2021

- Assisted in evaluating IT infrastructure for cloud adoption in schools.
- Facilitated workshops on cloud benefits for educators and administrators.
- Developed cloud implementation plans to enhance operational efficiency.
- Provided technical support for cloud applications in educational settings.
- Collaborated with faculty to tailor cloud solutions for specific teaching needs.
- Documented processes and best practices for cloud integration.
