

Michael ANDERSON

CLOUD INFRASTRUCTURE ENGINEER

Versatile Cloud Computing Engineer with over 6 years of experience in cloud infrastructure management and automation. Comprehensive knowledge of cloud service providers including AWS, Azure, and GCP, with a strong emphasis on infrastructure as code (IaC) methodologies. Proven ability to design, implement, and manage cloud solutions that improve operational efficiency and reduce costs.

SKILLS

- Cloud Infrastructure
- Terraform
- Ansible
- AWS
- Azure
- GCP
- DevOps
- IaC
- Automation

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, UNIVERSITY OF SCIENCE, 2016

ACHIEVEMENTS

- Reduced cloud provisioning time by 50% through automation and IaC practices.
- Recognized for outstanding performance in cloud management and optimization.
- Successfully led a project that improved cloud resource utilization by

WORK EXPERIENCE

CLOUD INFRASTRUCTURE ENGINEER

CloudTech Innovations
2020 - 2025

- Designed and deployed cloud infrastructure using Terraform, reducing setup time by 30%.
- Managed cloud resources across AWS and Azure, optimizing performance and cost-efficiency.
- Automated deployment processes with Ansible, improving reliability and speed.
- Worked closely with security teams to enforce best practices in cloud environments.
- Conducted workshops on IaC principles for the engineering team, enhancing team skill sets.
- Monitored cloud performance and implemented adjustments to maintain optimal operation.

DEVOPS ENGINEER

Tech Innovators Ltd.
2015 - 2020

- Collaborated with development teams to integrate cloud solutions into application lifecycles.
- Implemented CI/CD pipelines that reduced deployment times by 45%.
- Managed version control and configuration management for cloud resources.
- Developed monitoring solutions using cloud-native tools to ensure system health.
- Provided support for cloud-related issues, resolving incidents in a timely manner.
- Participated in disaster recovery planning, ensuring business continuity strategies were effective.
