Michael Anderson

CLOUD FINANCIAL ANALYST

I am a passionate Cloud Cost Optimization Engineer with a unique blend of technical and business skills, aiming to help organizations streamline their cloud expenditures. With over 7 years of experience in cloud computing and financial management, I have developed expertise in implementing cost-saving strategies that align with business goals. My background in project management allows me to lead cross-functional teams effectively while ensuring that cloud resources are utilized efficiently.

EXPERIENCE

CLOUD FINANCIAL ANALYST

Enterprise Solutions Group

2016 - Present

- Analyzed cloud expenditure reports to identify areas for cost improvement.
- Collaborated with procurement to negotiate better rates with cloud service providers.
- Developed financial models to forecast future cloud costs based on usage trends.
- Implemented cost allocation strategies to optimize resource usage across departments.
- Presented financial insights to executives, influencing strategic decisions.
- Trained team members on cloud financial management best practices.

PROJECT MANAGER - CLOUD INITIATIVES

Visionary Tech Inc.

2014 - 2016

- Led cloud migration projects, focusing on minimizing costs while maximizing performance.
- Coordinated with teams to assess cloud service options and select the most cost-effective solutions.
- Managed project budgets to ensure alignment with financial goals.
- Utilized project management tools to improve team collaboration and efficiency.
- Conducted regular reviews of cloud resource usage to make necessary adjustments.
- Developed training materials for team members on cloud cost management.
