

MICHAEL ANDERSON

CLOUD DEVOPS ENGINEER

PROFILE

With a decade of experience in the IT industry, I have specialized as a Cloud DevOps Engineer, focusing on the orchestration of cloud services and DevOps practices. My background in software engineering has given me the ability to understand both the application and infrastructure sides of deployment.

EXPERIENCE

CLOUD DEVOPS ENGINEER

Innovative Solutions Corp.

2016 - Present

- Architected cloud infrastructure using Google Cloud Platform services for scalability and reliability.
- Developed automated deployment scripts using Ansible and Terraform.
- Implemented logging and monitoring solutions using ELK stack to enhance troubleshooting capabilities.
- Collaborated with cross-functional teams to facilitate agile project management practices.
- Conducted performance tuning for cloud applications, improving response times by 40%.
- Mentored junior engineers on cloud technologies and DevOps methodologies.

SOFTWARE ENGINEER

Techware Inc.

2014 - 2016

- Developed web applications in Java and Python, focusing on performance and scalability.
- Participated in agile ceremonies, contributing to sprint planning and retrospectives.
- Integrated RESTful APIs with frontend applications to enhance user experience.
- Performed unit testing and code reviews to ensure quality standards.
- Collaborated with designers to implement responsive web design principles.
- Supported production environments and resolved critical issues in real-time.
