ACHIEVEMENTS

- Awarded Best Consultant of the Year in 2020 by E-Com Solutions.
- Successfully led a project that saved a client $1 million in potential losses due to data breaches.
- Published research on the impact of cloud technology on disaster recovery effectiveness.

PROFILE

Results-driven Cloud Disaster Recovery Engineer with over 10 years of experience in developing and executing recovery strategies for cloud environments. My expertise encompasses various sectors including telecommunications and e-commerce, where I have successfully led initiatives that ensured data integrity and operational continuity during crises. I am skilled in using advanced cloud solutions to create tailored disaster recovery plans that meet specific business needs.

EXPERIENCE

CLOUD DISASTER RECOVERY MANAGER

Telecom Networks Inc.

2016 - Present

- Directed the disaster recovery operations for cloud-based systems, achieving 99.9% uptime during crises.
- Implemented a new cloud solution that cut recovery costs by 25% while improving response times.
- Trained over 100 staff members on disaster recovery protocols, enhancing the overall readiness of the organization.
- Developed a comprehensive risk assessment framework that identified potential vulnerabilities across multiple platforms.
- Collaborated with the software development team to integrate disaster recovery features into new applications.
- Analyzed past incidents to improve future disaster recovery strategies, resulting in a 40% reduction in recovery time.

DISASTER RECOVERY CONSULTANT

E-Com Solutions

2014 - 2016

- Advised clients on cloud disaster recovery strategies, leading to a 30% improvement in operational resilience.
- Designed and implemented custom recovery solutions tailored to specific industry needs, including financial and retail sectors.
- Conducted business impact analyses to inform disaster recovery planning and prioritization.
- Facilitated workshops to educate clients on best practices for disaster recovery in the cloud.
- Established metrics for measuring the effectiveness of disaster recovery plans.
- Supported clients through successful audits, ensuring compliance with industry standards.
