MICHAEL ANDERSON

CLOUD DISASTER RECOVERY SPECIALIST

Dynamic Cloud Disaster Recovery Engineer with over 6 years of experience specializing in disaster recovery and business continuity planning within the manufacturing sector. I have a strong technical background, with expertise in automating recovery processes and optimizing cloud infrastructures. My previous roles have equipped me with the necessary skills to devise innovative solutions that ensure data integrity and business operations during unforeseen events.

PROFESSIONAL EXPERIENCE

ManufactureTech Solutions *Mar 2018 - Present*
Cloud Disaster Recovery Specialist

- Developed and executed a cloud-based disaster recovery plan that reduced downtime by 60%.
- Automated backup processes, resulting in a 50% decrease in manual errors.
- Collaborated with IT teams to integrate recovery solutions into existing workflows, enhancing operational efficiency.
- Conducted regular testing of disaster recovery plans, ensuring compliance with industry standards.
- Utilized Azure and Google Cloud Platform for scalable recovery solutions.
- Trained staff on disaster recovery protocols, improving overall preparedness across the organization.

Automate Inc. *Dec 2015 - Jan 2018*
Systems Engineer

- Designed IT infrastructure for disaster recovery, decreasing recovery time objectives by 40%.
- Implemented cloud monitoring tools that provided real-time insights into system health.
- Worked closely with vendors to ensure compliance with security policies and recovery objectives.
- Assisted in the migration of on-premises systems to cloud environments, facilitating a smoother transition.
- Created documentation for disaster recovery procedures, aiding in training and compliance efforts.
- Performed risk assessments to identify vulnerabilities, leading to improved disaster recovery strategies.

ACHIEVEMENTS

- Recognized for outstanding contributions to disaster recovery efforts at ManufactureTech Solutions.
- Successfully led a project that streamlined backup processes, saving the company significant operational costs.
- Recipient of the Innovation Award for developing an automated recovery testing framework.
