💼 WORK EXPERIENCE

Cloud Disaster Recovery Engineer   2020-2023
EduTech Solutions

- Developed disaster recovery plans that ensured 100% data availability during system outages for educational platforms.
- Implemented cloud-based backup solutions that reduced recovery time by 70%.
- Collaborated with faculty and IT staff to create training materials on disaster recovery best practices.
- Conducted regular testing of recovery plans to ensure compliance with educational regulations.
- Utilized Google Cloud and AWS to enhance system resilience and scalability.
- Performed risk assessments to identify vulnerabilities in existing recovery frameworks.

IT Coordinator   2019-2020
City College

- Assisted in the development of disaster recovery strategies for the college's IT systems.
- Managed the implementation of cloud solutions that streamlined recovery processes.
- Facilitated workshops to educate faculty about the importance of disaster recovery.
- Maintained documentation for disaster recovery plans, aiding compliance with educational standards.
- Supported the transition of on-premises systems to cloud environments, improving disaster recovery capabilities.
- Participated in regular drills to test the effectiveness of disaster recovery procedures.

★ ACHIEVEMENTS

- Received the Innovation Award for developing a cloud-based disaster recovery framework for educational institutions.
- Acknowledged for exceptional contributions to the college's disaster recovery initiatives.
- Led a project that improved data recovery times significantly, ensuring continuity of educational services.
