- San Francisco, CA

SKILLS

- AWS
- Azure
- Kubernetes
- Ansible
- Cloud Security
- Networking
- Linux
- Automation
- CI/CD
- Monitoring

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, STATE UNIVERSITY

ACHIEVEMENTS

- Led a cloud migration project that resulted in a 35% reduction in operational costs.
- Received 'Employee of the Year' award for outstanding performance in cloud engineering.
- Successfully trained over 50 employees on cloud technologies and best practices.

PROFILE

Dedicated Cloud Engineer with over 7 years of experience in designing and managing cloud infrastructure. My journey began as a systems administrator, where I developed a strong foundation in networking and server management before transitioning into cloud technologies. I possess extensive experience in cloud migration, having successfully led multiple projects that transitioned enterprise-level applications to cloud environments.

EXPERIENCE

CLOUD ENGINEER

Global Tech Corporation

2016 - Present

- Architected and deployed a hybrid cloud solution that improved data availability by 40%.
- Automated deployment processes using Ansible, reducing manual errors and deployment time by 60%.
- Implemented cloud security measures that led to a 50% reduction in security incidents.
- Conducted performance tuning and optimization for cloud-based applications, enhancing user experience.
- Collaborated with cross-functional teams to define cloud architecture and migration strategies.
- Provided 24/7 support for cloud infrastructure, ensuring high availability and reliability.

SYSTEMS ADMINISTRATOR

Tech Solutions Co.

2014 - 2016

- Managed and maintained company servers and network infrastructure, ensuring 99.5% uptime.
- Assisted in the implementation of cloud technologies, leading to a 30% improvement in system performance.
- Developed backup and disaster recovery plans for cloud environments, ensuring data integrity.
- Provided technical support to users, resolving issues within an average of 2 hours.
- Conducted training sessions for staff on new cloud applications and technologies.
- Maintained documentation for system configurations and procedures, improving team efficiency.
