MICHAEL ANDERSON

CLOUD IDENTITY ENGINEER

Results-driven Cloud Identity Engineer with a focus on developing and managing identity solutions in the tech industry. Over 5 years of hands-on experience in automating identity processes and enhancing security protocols to protect sensitive information. Proficient in leveraging cloud technologies to create efficient IAM systems that align with business objectives. Strong problem-solving skills and a proactive approach to identifying and mitigating risks associated with identity management.

PROFESSIONAL EXPERIENCE

Innovatech Solutions

Mar 2018 - Present

Cloud Identity Engineer

- Automated user provisioning processes using Azure AD, reducing onboarding time by 50%.
- Developed cloud IAM policies that enhanced security compliance, achieving 100% audit success.
- Conducted user access reviews to identify and rectify permission anomalies.
- Collaborated with development teams to integrate IAM solutions into new applications.
- Implemented single sign-on (SSO) for internal applications, improving user experience.
- Maintained documentation for IAM processes and systems, ensuring clarity and compliance.

Secure Tech Group

Dec 2015 - Jan 2018

Junior Security Engineer

- Assisted in the implementation of IAM solutions for enterprise clients.
- Monitored and analyzed security incidents related to identity management.
- Participated in the development of security awareness programs for staff.
- Supported the migration of legacy identity systems to cloud platforms.
- Contributed to the creation of security policies and procedures.
- Provided technical support for IAM-related issues to end-users.

ACHIEVEMENTS

- Achieved a 100% success rate on compliance audits for IAM systems.
- Recognized by management for outstanding contributions to identity management projects.
- Completed a certification in Cloud Identity Management.
