EDUCATION

**BACHELOR OF SCIENCE IN
INFORMATION TECHNOLOGY, TECH
UNIVERSITY, 2016**

ACHIEVEMENTS

- Successfully migrated a critical business application with zero downtime.
- Named 'Employee of the Month' for exceptional performance during a high-stakes migration project.
- Implemented process improvements that resulted in a 25% increase in team productivity.

PROFILE

I am a results-driven Cloud Migration Engineer with over 5 years of experience specializing in migrating legacy systems to cloud environments. My career began in technical support, where I developed a strong understanding of infrastructure and systems, which later transitioned into cloud computing. I have a passion for helping organizations leverage cloud capabilities to enhance their operational efficiency and reduce costs.

EXPERIENCE

CLOUD MIGRATION ENGINEER

Dynamic Cloud Solutions

2016 - Present

- Executed migration of over 50 legacy applications to AWS, achieving a 30% reduction in operational costs.
- Developed automated deployment scripts using AWS CloudFormation, improving deployment time by 40%.
- Conducted pre-migration assessments and created detailed migration plans tailored for each application.
- Utilized monitoring tools to ensure application performance post-migration, leading to a 15% improvement in user experience.
- Worked closely with database teams to ensure data migration accuracy and integrity.
- Provided ongoing support and optimization recommendations to clients post-migration.

SYSTEMS ENGINEER

Innovative IT Services

2014 - 2016

- Supported the migration of internal systems to a hybrid cloud environment, increasing system availability by 20%.
- Assisted in the configuration of cloud services and resources in AWS and GCP.
- Performed troubleshooting and optimization of cloud services to enhance performance.
- Collaborated with software development teams to ensure compatibility of applications with cloud services.
- Engaged in disaster recovery planning to protect critical business data in the cloud.
- Documented best practices and lessons learned during cloud migration projects for future reference.
