WORK EXPERIENCE

Lead Cloud Monitoring Engineer

2020-2023

Enterprise Cloud Solutions

- Designed and implemented comprehensive monitoring solutions for AWS and Azure environments.
- Developed automated scripts to enhance monitoring efficiency and reduce manual tasks.
- Collaborated with IT teams to align cloud monitoring with enterprise objectives.
- Conducted regular audits to ensure compliance with industry standards and best practices.
- Improved incident response time by 40% through better alerting mechanisms.
- Mentored junior staff on cloud monitoring tools and methodologies.

Senior Cloud Engineer

2019-2020

Cloud Dynamics Inc.

- Managed cloud monitoring for critical applications, ensuring high availability and performance.
- Utilized Azure Monitor and AWS CloudTrail to track and improve system performance.
- Created dashboards that provided real-time insights into cloud operations.
- Worked with development teams to optimize application performance based on monitoring data.
- Participated in incident response drills to improve overall cloud readiness.
- Documented monitoring processes to facilitate knowledge sharing within the team.

ACHIEVEMENTS

- Received the Innovation Award for developing a monitoring solution that increased uptime by 30%.
- Spearheaded a project that reduced cloud costs by 20% through efficient monitoring.
- Published research on cloud monitoring best practices in industry conferences.
