

MICHAEL ANDERSON

Cloud Performance Analyst

Innovative Cloud Performance Engineer with over 4 years of experience focusing on cloud infrastructure and system performance optimization. Strong background in DevOps practices, leveraging automation tools to enhance deployment efficiency. Proficient in utilizing cloud services to improve application performance and reduce operational costs. Adept at collaborating with cross-functional teams to achieve business goals and customer satisfaction.

EDUCATION

Bachelor of Science in Computer Engineering

State University
2016-2020

SKILLS

- Cloud Performance Optimization
- DevOps
- Automation
- AWS
- Ansible
- Monitoring

LANGUAGES

- English
- Spanish
- French

WORK EXPERIENCE

Cloud Performance Analyst

2020-2023

Synergy Cloud Services

- Analyzed cloud application performance metrics to drive improvements in service delivery.
- Implemented automated deployment processes using Ansible, reducing time to market.
- Collaborated with development teams to address performance bottlenecks effectively.
- Monitored system performance using cloud-native tools, ensuring high availability.
- Supported disaster recovery planning and execution for cloud systems.
- Documented performance analysis and provided recommendations for optimization.

Cloud Operations Engineer

2019-2020

TechWave Solutions

- Designed and implemented cloud infrastructure to support scalable applications.
- Worked with CI/CD pipelines to automate application deployments and updates.
- Conducted performance tuning for cloud resources, improving application efficiency.
- Collaborated with security teams to ensure compliance with cloud security policies.
- Monitored cloud environments and performed troubleshooting for service disruptions.
- Participated in training sessions to enhance team knowledge on cloud technologies.

ACHIEVEMENTS

- Improved deployment times by 50% through effective automation strategies.
- Recognized for outstanding teamwork in cloud migration projects.
- Achieved a 15% reduction in operational costs through performance monitoring initiatives.
