MICHAEL ANDERSON

CLOUD INFRASTRUCTURE ADMINISTRATOR

Detail-oriented Cloud Platform Administrator with over 6 years of experience in managing hybrid cloud environments and services. Expertise in VMware and OpenStack, with a strong focus on infrastructure as code and automation. Proven ability to streamline operations and enhance cloud security protocols in line with industry best practices. Strong background in supporting enterprise-level applications and ensuring high availability of services.

PROFESSIONAL EXPERIENCE

Enterprise Solutions Group   *Mar 2018 - Present*
Cloud Infrastructure Administrator

- Managed hybrid cloud infrastructure on VMware and OpenStack, ensuring 99.9% uptime.
- Automated cloud provisioning processes using Ansible, reducing deployment times significantly.
- Implemented robust security measures, resulting in zero security incidents over two years.
- Worked closely with application teams to optimize performance and scalability of cloud services.
- Conducted regular capacity planning and resource allocation for cloud environments.
- Provided technical guidance and support for cloud-related projects.

Tech Innovations Ltd.   *Dec 2015 - Jan 2018*
Cloud Systems Administrator

- Assisted in the deployment and management of cloud environments for enterprise applications.
- Monitored system performance and logs for early detection of potential issues.
- Supported cloud migration initiatives, ensuring adherence to best practices.
- Participated in disaster recovery drills to enhance business continuity planning.
- Developed cloud documentation and training materials for staff.
- Engaged in continuous improvement efforts to enhance cloud operational efficiency.

ACHIEVEMENTS

- Led a project that improved cloud resource utilization by 25% through re-architecting.
- Received commendation for maintaining a secure cloud environment with zero breaches.
- Played a key role in a cloud migration project that saved the company $200,000 annually.
