

MICHAEL ANDERSON

CLOUD ENGINEER

PROFILE

With over 5 years of experience as a Cloud Platform Engineer, I specialize in implementing and managing cloud-based solutions that drive business efficiency. My background in software development provides me with a unique perspective on how to tailor cloud services to meet specific application needs. I have extensive experience in both public and private cloud environments, particularly with AWS and Google Cloud Platform.

EXPERIENCE

CLOUD ENGINEER

Innovatech Solutions

2016 - Present

- Designed and deployed cloud infrastructure solutions using AWS and GCP.
- Automated deployment processes using Terraform and Python scripts.
- Monitored system performance and implemented improvements to enhance service uptime.
- Conducted training sessions for developers on best practices in cloud usage.
- Collaborated with security teams to ensure secure cloud configurations.
- Participated in disaster recovery planning and testing, ensuring business continuity.

SOFTWARE DEVELOPER

NextGen Apps

2014 - 2016

- Developed cloud-based applications that improved operational efficiency.
- Worked closely with the cloud engineering team to optimize performance.
- Utilized microservices architecture to enhance application scalability.
- Performed unit and integration testing to ensure code quality.
- Participated in agile ceremonies, contributing to sprint planning and retrospectives.
- Contributed to the development of internal tools for cloud resource management.
