

Michael

ANDERSON

CLOUD ENGINEER

As a Cloud Platform Engineer with 3 years of experience, I have been dedicated to supporting small to mid-sized businesses in their cloud adoption journeys. I focus on providing cost-effective solutions that allow organizations to leverage cloud technologies effectively. My role involves hands-on implementation of cloud services, and I have a strong foundation in both infrastructure and application development.

WORK EXPERIENCE

CLOUD ENGINEER

SMB Cloud Solutions

2020 - 2025

- Implemented AWS cloud services for small business clients to improve operational efficiency.
- Automated backup processes using Lambda functions, reducing data loss risks.
- Provided technical support and training to clients on cloud usage.
- Conducted cloud assessments to recommend tailored solutions for businesses.
- Collaborated with developers to integrate cloud services into existing applications.
- Maintained documentation of cloud configurations and procedures.

JUNIOR DEVELOPER

Web Solutions LLC

2015 - 2020

- Assisted in developing cloud-based applications using AWS services.
- Participated in code reviews to ensure quality and performance standards.
- Collaborated with the QA team to identify and resolve cloud-related issues.
- Contributed to the development of internal tools for cloud management.
- Engaged in agile methodologies to enhance team productivity.
- Supported the migration of legacy systems to cloud platforms.
