SKILLS

- Kubernetes
- Docker
- Terraform
- Cloud Security
- Automation
- Incident Management

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, UNIVERSITY OF FLORIDA, 2016

ACHIEVEMENTS

- Achieved a 30% improvement in incident response times through automation initiatives.
- Contributed to a project that secured a multi-million dollar cloud migration.
- Recognized as 'Employee of the Month' for outstanding performance in 2022.

PROFILE

Dedicated Cloud Security Engineer with 5 years of direct experience in securing cloud infrastructures, specializing in automation and container security. I have a proven track record of implementing security measures that protect sensitive data while facilitating seamless access for authorized users. My approach combines technical expertise with a solid understanding of business requirements, allowing me to build tailored security solutions that align with organizational goals.

EXPERIENCE

CLOUD SECURITY ENGINEER

Innovative Cloud Services

2016 - Present

- Designed and enforced security protocols for containerized applications using Kubernetes.
- Automated security compliance checks across multiple cloud environments using Terraform.
- Conducted security training sessions for developers to promote secure coding practices.
- Monitored cloud environments for suspicious activities, reducing response times by 25%.
- Collaborated with cross-functional teams to integrate security assessments into agile workflows.
- Evaluated and implemented new security tools that improved incident detection capabilities.

JUNIOR CLOUD SECURITY ENGINEER

SecureTech Solutions

2014 - 2016

- Assisted in the implementation of cloud security measures that protected client data.
- Participated in vulnerability assessments and remediation efforts for cloud applications.
- Maintained security documentation and policies for cloud infrastructures.
- Supported incident management processes, improving team response speed.
- Helped in the deployment of security monitoring tools across cloud platforms.
- Contributed to team knowledge-sharing sessions on emerging security threats.
