

# Michael ANDERSON

## CLOUD SECURITY AUTOMATION ENGINEER

Innovative Cloud Security Engineer with a focus on developing automated security solutions for cloud environments. With over 6 years of experience, my expertise includes implementing security automation processes that minimize manual intervention and enhance overall security efficiency. I have a strong foundation in both security and software engineering, which allows me to bridge the gap between development and security teams.

### SKILLS

- Security Automation
- CI/CD
- Compliance
- Ansible
- Jenkins
- Vulnerability Management

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

**BACHELOR OF SCIENCE IN COMPUTER ENGINEERING, GEORGIA TECH, 2014**

### ACHIEVEMENTS

- Achieved a 60% reduction in manual security checks through automation.
- Contributed to the successful launch of a security-first cloud application.
- Recognized as 'Top Performer' in 2021 for outstanding contributions.

### WORK EXPERIENCE

#### CLOUD SECURITY AUTOMATION ENGINEER

Dynamic Tech Solutions

2020 - 2025

- Developed automated security tools that reduced manual compliance checks by 50%.
- Implemented security solutions in CI/CD pipelines to ensure continuous compliance.
- Worked closely with development teams to integrate security into software development lifecycles.
- Monitored system logs for potential security threats, improving detection rates.
- Utilized Ansible for automated security configuration management.
- Conducted training sessions on security automation best practices for team members.

#### CLOUD SECURITY ENGINEER

TechGuard Inc.

2015 - 2020

- Implemented security controls in cloud infrastructures to protect sensitive data.
- Participated in security architecture reviews for cloud-based applications.
- Conducted vulnerability assessments and remediation efforts.
- Developed and maintained security documentation for cloud services.
- Assisted in incident response efforts during security breaches.
- Collaborated with IT teams to ensure timely deployment of security updates.
