### SKILLS

- AWS
- Azure
- Software Development
- Security
- Agile
- Automation
- User Experience

### LANGUAGES

- English
- Spanish
- French

### EDUCATION

#### BACHELOR OF SCIENCE IN SOFTWARE ENGINEERING

### ACHIEVEMENTS

- Recognized as 'Employee of the Month' for outstanding performance in developing cloud solutions.
- Initiated a project that reduced application load times by 30% through optimization techniques.
- Completed a certification in Cloud Security in 2022, enhancing expertise in secure cloud development.

### WORK EXPERIENCE

#### CLOUD SOFTWARE ENGINEER

Cloud Vision Technologies

2020 - 2025

- Designed and developed cloud applications that improved user engagement metrics by 25%.
- Implemented security measures that reduced vulnerabilities by 40%.
- Collaborated with QA teams to develop automated testing frameworks, enhancing product reliability.
- Utilized Agile methodologies to manage project timelines and deliverables effectively.
- Engaged in continuous integration practices to streamline development workflows.
- Participated in customer feedback sessions to refine application features and usability.

#### JUNIOR CLOUD DEVELOPER

TechSmart Inc.

2015 - 2020

- Assisted in building cloud-based applications, contributing to a 15% increase in operational efficiency.
- Supported the migration of on-premises applications to the cloud, enhancing accessibility.
- Documented technical processes and application features for future reference.
- Provided support for production issues, ensuring timely resolution and minimal downtime.
- Engaged in team brainstorming sessions to propose innovative cloud solutions.
- Participated in training programs to improve cloud technology knowledge and skills.
