SKILLS

- Google Cloud
- Python
- Java
- Docker
- Kubernetes
- Agile

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY, STATE UNIVERSITY, 2017

ACHIEVEMENTS

- Led a cross-functional team to achieve a 40% reduction in cloud service costs.
- Received recognition for outstanding performance in cloud project delivery in 2021.
- Implemented a cloud security framework that improved compliance with industry standards.

PROFILE

Results-oriented Cloud Software Engineer with over 5 years of experience in developing and deploying cloud applications. Adept at utilizing cloud services to enhance business operations and drive innovation. Proficient in programming languages such as Python and Java, with a strong foundation in software development methodologies. Recognized for the ability to analyze complex problems and devise effective solutions.

EXPERIENCE

CLOUD ENGINEER

Innovative Tech Corp.

2016 - Present

- Engineered scalable cloud solutions using Google Cloud Platform, increasing application availability to 99.9%.
- Developed automated testing frameworks to ensure software reliability and performance.
- Collaborated with stakeholders to define cloud architecture and design specifications.
- Utilized Docker and Kubernetes for container orchestration, streamlining deployment processes.
- Maintained and optimized cloud services to reduce latency and improve user experience.
- Conducted training sessions for team members on cloud technologies and agile methodologies.

SOFTWARE DEVELOPER

Future Technologies Inc.

2014 - 2016

- Developed RESTful APIs for cloud applications, enhancing integration capabilities with external systems.
- Participated in code reviews, ensuring adherence to coding standards and best practices.
- Engaged in troubleshooting and debugging of cloud applications to optimize performance.
- Collaborated with UX/UI designers to implement user-friendly interfaces for cloud services.
- Contributed to the documentation of cloud architecture and development processes.
- Facilitated workshops on cloud computing concepts for non-technical staff.
