WORK EXPERIENCE

Cloud Solutions Architect

2020-2023

HealthTech Innovations

- Designed cloud solutions for electronic health records, improving patient data accessibility by 30%.
- Ensured HIPAA compliance for cloud applications, minimizing risks and enhancing patient trust.
- Implemented cloud-based telemedicine solutions, increasing patient engagement by 25%.
- Collaborated with clinical staff to gather requirements for cloud projects, ensuring alignment with healthcare goals.
- Conducted training sessions for healthcare professionals on cloud technologies, improving adoption rates.
- Developed performance metrics to track cloud application usage, driving continuous improvements.

Cloud Engineer

2019-2020

Health Services Group

- Engineered cloud infrastructure for telehealth services, enhancing access to care for underserved populations.
- Optimized cloud storage solutions for patient data, achieving a 20% reduction in storage costs.
- Supported cloud migration projects for legacy healthcare systems, improving operational efficiency.
- Ensured data security through the implementation of robust encryption methods.
- Worked with IT teams to integrate cloud solutions with existing hospital systems, enhancing overall functionality.
- Participated in user acceptance testing to ensure solutions met healthcare standards.

ACHIEVEMENTS

- Recognized with the Healthcare Innovation Award for developing cloud solutions that improved patient care.
- Successfully led a project that resulted in a 50% increase in telehealth service usage during the pandemic.
- Achieved a 95% satisfaction rate from healthcare professionals using cloud solutions
