SKILLS

- AWS
- Azure
- Data Analytics
- Cloud Security
- Compliance
- Mentorship

LANGUAGES

- English
- Spanish
- French

EDUCATION

MASTER'S IN INFORMATION SYSTEMS, GLOBAL UNIVERSITY

ACHIEVEMENTS

- Achieved a 50% reduction in data retrieval times through optimized storage strategies.
- Recognized for outstanding performance in cloud project delivery.
- Successfully led initiatives that improved data security compliance ratings.

Detail-oriented Cloud Storage Engineer with 7 years of experience in the IT sector, focusing on cloud infrastructure and data management. I have a comprehensive understanding of cloud technologies, including AWS and Azure, and have successfully implemented storage solutions that prioritize security and reliability. My background in data analytics allows me to effectively interpret usage data and optimize storage solutions accordingly.

WORK EXPERIENCE

CLOUD STORAGE ARCHITECT
Cloud Dynamics
2020 - 2025

- Architected cloud storage solutions for high-traffic applications, ensuring reliability.
- Implemented data security measures that resulted in zero data breaches.
- Optimized storage configurations to enhance performance by 35%.
- Collaborated with development teams to integrate cloud storage with existing systems.
- Conducted regular audits to ensure compliance with industry standards.
- Provided mentorship to junior engineers on cloud technologies.

CLOUD ENGINEER
Integrated Tech Solutions
2015 - 2020

- Managed cloud storage resources for multiple clients, ensuring optimal performance.
- Executed data migration projects, reducing downtime to less than 1 hour.
- Developed monitoring tools to track storage usage and performance metrics.
- Worked closely with clients to assess their storage needs and provide solutions.
- Participated in disaster recovery planning and execution.
- Documented processes and created user manuals for cloud storage solutions.
