SKILLS

- CNC programming
- plasma cutting
- machine calibration
- safety compliance
- teamwork
- production scheduling

EDUCATION

ASSOCIATE OF APPLIED SCIENCE IN
WELDING TECHNOLOGY, TECHNICAL
COLLEGE

LANGUAGE

- English
- Spanish
- German

ACHIEVEMENTS

- Improved production yields by 20% through process innovation.
- Awarded 'Best Employee' for outstanding contributions in 2021.
- Successfully reduced scrap rates by 15% in 2023.

Michael Anderson

CNC PLASMA CUTTING OPERATOR

Expert CNC Plasma Cutting Operator with a rich background in the metal fabrication industry, focusing on high-quality production and operational excellence. Demonstrates a robust understanding of CNC machinery, coupled with an aptitude for programming and machine setup to achieve precise cutting results. A strong advocate for safety and efficiency, consistently adhering to best practices while optimizing production processes.

EXPERIENCE

CNC PLASMA CUTTING OPERATOR

Alpha Steel Works

2016 - Present

- Operated CNC plasma cutting machines to produce high-quality metal parts.
- Set up programs and calibrated machinery for various production runs.
- Analyzed blueprints and work orders to determine cutting requirements.
- Collaborated with the design team to refine cutting strategies and improve designs.
- Ensured compliance with safety standards and maintained a clean work environment.
- Documented production data and reported on performance metrics regularly.

METAL FABRICATOR

Steel Innovations

2014 - 2016

- Fabricated metal components using a variety of machining techniques.
- Assisted in the development and execution of production schedules.
- Participated in quality control inspections to guarantee product integrity.
- Collaborated with engineers to optimize designs for manufacturability.
- Engaged in safety training and adherence to workplace regulations.
- Maintained tools and equipment in accordance with safety guidelines.
