EXPERTISE SKILLS

- Industrial Automation
- Robotics Programming
- Team Leadership
- Process Improvement
- Data Analysis
- Project Management

LANGUAGES

- English
- Spanish
- French

CERTIFICATION

- Bachelor of Engineering in Robotics, Georgia Institute of Technology

MICHAEL ANDERSON

LEAD COBOTICS ENGINEER

Results-driven Cobotics Engineer with extensive experience in industrial automation and process optimization. Over 9 years of expertise in deploying robotic solutions that enhance operational efficiency and reliability. Skilled in programming, troubleshooting, and maintaining robotic systems across diverse industries including automotive and electronics. Demonstrated ability to lead teams in the successful execution of complex projects, ensuring alignment with strategic business objectives.

PROFESSIONAL EXPERIENCE

Global Manufacturing Corp.

Mar 2018 - Present

Lead Cobotics Engineer

- Led the deployment of robotic systems resulting in a 35% increase in production throughput.
- Managed a team of engineers to develop and implement automation strategies.
- Conducted feasibility studies to evaluate the impact of new technologies on operations.
- Established maintenance schedules to minimize downtime and ensure system reliability.
- Collaborated with suppliers to source advanced robotic components.
- Presented project outcomes to executive leadership, showcasing ROI from automation investments.

Tech Solutions Ltd.

Dec 2015 - Jan 2018

Automation Engineer

- Designed and tested automated systems for assembly lines, enhancing efficiency by 20%.
- Implemented PLC programming for robotic applications in manufacturing.
- Trained operators on the integration and maintenance of robotic systems.
- Worked closely with quality assurance teams to ensure product standards.
- Analyzed production data to identify trends and areas for improvement.
- Participated in cross-functional teams to facilitate project coordination.

ACHIEVEMENTS

- Achieved a 40% reduction in production costs through automation initiatives.
- Recognized for excellence in project management with a company award.
- Successfully implemented robotic solutions across multiple sites, enhancing consistency.
