

Michael ANDERSON

COGNITIVE NEUROSCIENTIST

I am a passionate Cognitive Neuroscientist with a keen interest in neuroethics and the societal implications of neuroscience research. With 7 years of experience in both academic and applied research settings, I have explored the ethical dimensions of cognitive enhancement and the responsible use of neurotechnologies. My work has involved engaging with policymakers and the public to foster understanding and dialogue on neuroscience's role in society.

EDUCATION

**M.A. IN PHILOSOPHY AND
NEUROSCIENCE, UNIVERSITY OF
CAMBRIDGE**

ACHIEVEMENTS

- Published a book chapter on ethical issues in cognitive enhancement.
- Received the 'Best Paper Award' at the Neuroethics Conference.
- Developed a successful public lecture series that reached over 1,000 attendees.

WORK EXPERIENCE

COGNITIVE NEUROSCIENTIST

Neuroethics Research Group

2020 - 2025

- Conducted research on the ethical implications of cognitive enhancement technologies.
- Developed public engagement strategies to discuss neuroscience and ethics.
- Collaborated with ethicists and scientists to create guidelines for responsible research.
- Published articles in ethics journals, raising awareness of neuroethical issues.
- Organized public forums to engage community discussion on neuroscience.
- Contributed to grant applications focusing on ethical research funding.

RESEARCH ASSISTANT

Institute for Neuroethics

2015 - 2020

- Assisted in projects examining the societal impacts of neuroscience.
- Conducted literature reviews on neuroethics and public perception.
- Supported the development of educational materials about neuroethical issues.
- Engaged in community outreach to raise awareness of neuroethics.
- Contributed to publications discussing the implications of new technologies.
- Participated in interdisciplinary meetings to promote ethical research collaboration.
