MICHAEL ANDERSON

SWINE PRODUCTION MANAGER

Results-oriented Commercial Livestock Manager with extensive experience in the swine industry, specializing in breeding and genetics management. Over 10 years of proven success in enhancing production performance and implementing biosecurity measures. Strong analytical skills, with a focus on data-driven decision-making to improve herd health and productivity. Recognized for developing innovative breeding programs that resulted in significant genetic advancements.

PROFESSIONAL EXPERIENCE

Pork Innovations Inc.

Mar 2018 - Present

Swine Production Manager

- Oversaw a commercial swine operation with 5,000 breeding sows.
- Implemented genetic selection programs that improved litter size by 15%.
- Managed biosecurity protocols to minimize disease outbreaks and ensure herd health.
- Collaborated with nutritionists to optimize feed formulations, enhancing growth rates.
- Supervised a team of 20 employees, fostering a culture of safety and high performance.
- Utilized production data analytics to drive strategic improvements in operations.

Green Acres Farm

Dec 2015 - Jan 2018

Assistant Swine Manager

- Assisted in managing breeding programs and health monitoring for a large swine operation.
- Participated in the development of biosecurity measures that reduced disease incidence by 30%.
- Conducted training sessions for staff on best practices in animal care and husbandry.
- Monitored production metrics and provided recommendations for improvement.
- Maintained accurate records of breeding and health data for compliance reporting.
- Engaged with local veterinary services to ensure herd health and welfare.

ACHIEVEMENTS

- Increased overall swine productivity by 20% through targeted breeding strategies.
- Achieved recognition for outstanding biosecurity practices at the National Swine Conference.
- Developed a training program that improved employee retention by 15%.
