EDUCATION

BACHELOR OF SCIENCE IN PUBLIC HEALTH, UNIVERSITY OF STATE, 2014

ACHIEVEMENTS

- Increased participation in health programs by over 50% in one year.
- Received the 'Outstanding Service Award' from the Health Department in 2022.
- Secured funding for health initiatives totaling \$150,000 through grant applications.

PROFILE

Accomplished Community Engagement Specialist with a robust background in public health initiatives and community development. Expertise encompasses the design and execution of programs that promote health literacy and enhance access to essential services. Proven track record in building coalitions among health care providers, government agencies, and community organizations to address public health challenges.

EXPERIENCE

PUBLIC HEALTH COMMUNITY LIAISON

Health for All

2016 - Present

- Facilitated community health workshops to educate residents on preventive care.
- Collaborated with health departments to identify and address community health needs.
- Developed outreach materials to promote health services and resources.
- Established partnerships with local organizations to enhance program reach.
- Monitored and evaluated program effectiveness through community surveys.
- Advocated for health policy changes that benefit underserved populations.

COMMUNITY HEALTH EDUCATOR

Wellness Network

2014 - 2016

- Designed and implemented educational programs focusing on nutrition and wellness.
- Conducted outreach to engage community members in health-related activities.
- Collaborated with schools to integrate health education into curricula.
- Coordinated health fairs to provide free screenings and resources.
- Created informational materials to promote healthy lifestyles.
- Evaluated program outcomes and reported findings to stakeholders.
