EDUCATION

BACHELOR OF SCIENCE IN ENVIRONMENTAL SCIENCE, COASTAL UNIVERSITY, 2013

ACHIEVEMENTS

- Increased local fishers' adoption of sustainable practices by 30%.
- Successfully led a project that resulted in the establishment of a marine protected area.
- Received the Community Leadership Award for outstanding contributions to fisheries development.

PROFILE

An accomplished Community Fisheries Development Specialist with a robust background in marine resource management and community-led initiatives. Over 8 years of experience in designing and executing programs that empower local fishers to adopt sustainable fishing techniques while enhancing their livelihoods. Proven ability to foster partnerships among government entities, NGOs, and local communities to create impactful strategies for fisheries management.

EXPERIENCE

COMMUNITY FISHERIES COORDINATOR

Fisheries Development Organization

2016 - Present

- Coordinated community-based fisheries management initiatives.
- Facilitated workshops on sustainable fishing and resource conservation.
- Engaged local leaders in participatory planning processes.
- Monitored and evaluated project outcomes using qualitative methods.
- Developed strategic partnerships with local advocacy groups.
- Implemented communication strategies to raise awareness about marine conservation.

RESEARCH ASSISTANT

Marine Resource Research Institute

2014 - 2016

- Assisted in research projects focused on marine biodiversity.
- Collected and analyzed data on fish populations and habitats.
- Collaborated with scientists to publish findings in peer-reviewed journals.
- Supported community outreach initiatives to disseminate research results.
- Contributed to grant writing efforts for funding research projects.
- Participated in field surveys to assess ecological health of marine areas.
