Michael Anderson

URBAN FORESTRY PROGRAM DIRECTOR

Innovative Community Forestry Specialist with a focus on urban forestry and green infrastructure development. Recognized for integrating urban planning principles with sustainable forestry practices to enhance urban resilience and community well-being. Possesses a strong background in landscape architecture and environmental design, facilitating the creation of green spaces that promote biodiversity. Proven ability to collaborate with city officials, community organizations, and residents to implement urban forestry initiatives.

EXPERIENCE

URBAN FORESTRY PROGRAM DIRECTOR

City Green Spaces Initiative

2016 - Present

- Directed urban forestry programs that increased tree canopy cover by 15% in targeted neighborhoods.
- Developed community engagement strategies to promote urban greening initiatives.
- Collaborated with city planners to integrate green infrastructure into urban development projects.
- Organized tree planting events involving over 500 community volunteers.
- Conducted assessments of urban tree health and community needs.
- Secured funding for urban forestry projects through grant applications.

LANDSCAPE ARCHITECT

Urban Design Associates

2014 - 2016

- Designed green spaces that enhance urban biodiversity and community access.
- Conducted site analysis for urban forestry projects to ensure ecological effectiveness.
- Collaborated with multidisciplinary teams on sustainable urban development initiatives.
- Presented design proposals to stakeholders and community groups.
- Created educational materials on the benefits of urban forestry.
- Participated in community workshops to gather feedback on design concepts.
