PROFILE

Results-oriented Community Health Program Coordinator with over 5 years of experience in the nonprofit sector focusing on maternal and child health. Deep understanding of health education strategies and program management aimed at improving health outcomes for families. Proven ability to lead health campaigns, engage community members, and collaborate with healthcare providers.

EXPERIENCE

MATERNAL HEALTH PROGRAM COORDINATOR

Family Health Alliance

2016 - Present

- Coordinated a maternal health outreach program that resulted in a 25% increase in prenatal care visits.
- Developed educational materials on pregnancy health that were distributed to over 2,000 women.
- Facilitated workshops for expectant mothers covering nutrition, breastfeeding, and postpartum care.
- Collaborated with pediatricians to enhance resources available for new families.
- Utilized feedback from participants to improve program content and delivery.
- Organized community events promoting maternal health awareness, engaging over 300 participants.

COMMUNITY OUTREACH SPECIALIST

Healthy Families Coalition

2014 - 2016

- Implemented outreach strategies that increased program enrollment by 40% in one year.
- Conducted surveys to assess community needs and tailor programs accordingly.
- Trained volunteers to provide health education in local schools and community centers.
- Established partnerships with local businesses to support health initiatives with resources.
- Organized health fairs that provided screenings and resources to over 600 community members.
- Presented program outcomes at regional health conferences, showcasing best practices.
