EDUCATION

BACHELOR OF SCIENCE IN PUBLIC HEALTH, STATE UNIVERSITY

ACHIEVEMENTS

- Co-authored a research paper published in a leading public health journal.
- Successfully increased participation in maternal health programs by 40% through targeted outreach.
- Received recognition from the local health department for outstanding community engagement efforts.

PROFILE

With over five years of experience as a Community Health Researcher, I specialize in conducting research focused on maternal and child health. My journey began as a volunteer in a local health clinic, where I witnessed firsthand the challenges faced by underserved populations. This inspired me to pursue a career dedicated to improving health outcomes for mothers and children.

EXPERIENCE

COMMUNITY HEALTH RESEARCHER

Child Health Initiative

2016 - Present

- Conducted research on maternal health disparities affecting low-income families, impacting policy changes in local healthcare services.
- Implemented community-based participatory research projects, involving over 300 families in the study.
- Analyzed data from surveys and focus groups to identify barriers to accessing prenatal care.
- Worked with local hospitals to create educational materials promoting maternal health.
- Presented findings at community meetings, fostering discussions on maternal health issues.
- Collaborated with public health officials to develop strategies for improving maternal health outcomes.

RESEARCH ASSISTANT

Healthy Families Research Center

2014 - 2016

- Assisted in the development and administration of surveys focused on child health and development.
- Conducted literature reviews to support research findings and grant applications.
- Helped organize community workshops and health fairs to disseminate health information.
- Maintained data integrity by managing databases and conducting quality checks.
- Supported the analysis of qualitative data, contributing to reports on child health trends.
- Participated in team meetings to discuss research progress and next steps.
