LOCAL UNIVERSITY**

ACHIEVEMENTS

- Increased prenatal program enrollment by 50% within two years.
- Recognized by the state for innovation in maternal health programming.
- Authored a community health report that informed local health policy changes.

Compassionate Community Health Specialist with a focus on maternal and child health. Over 7 years of experience in community health programming and advocacy, specifically aimed at reducing maternal and infant mortality rates. Proven ability to develop culturally sensitive health education materials and programs that resonate with diverse populations. Strong background in conducting needs assessments and leveraging community resources for health improvement.

WORK EXPERIENCE

MATERNAL AND CHILD HEALTH COORDINATOR

Family Health Center

2020 - 2025

- Developed and implemented a prenatal education program that reached over 300 expectant mothers.
- Conducted home visits to provide support and resources to new parents.
- Collaborated with local healthcare providers to improve maternal care services.
- Organized community health fairs focused on maternal and child health resources.
- Utilized feedback from participants to enhance program offerings.
- Trained volunteers to assist in maternal health outreach efforts.

PUBLIC HEALTH EDUCATOR

State Department of Health

2015 - 2020

- Facilitated workshops on infant care and breastfeeding for new mothers.
- Created educational pamphlets on safe sleep practices for infants.
- Conducted surveys to assess community health needs related to maternal and child health.
- Partnered with local organizations to provide resources for new families.
- Evaluated program effectiveness and made recommendations for improvement.
- Presented findings at state health conferences to share successful strategies.
