## EXPERTISE SKILLS

- Deep Learning
- Python
- TensorFlow
- Image Processing
- Data Analysis
- E-commerce

## LANGUAGES

- English
- Spanish
- French

## CERTIFICATION

- Bachelor's in Computer Engineering from UC Berkeley

# MICHAEL ANDERSON

## COMPUTER VISION ENGINEER

As a passionate Computer Vision Engineer with over 5 years of experience, I focus on bringing artificial intelligence to life through visual perception technologies. My journey began in the e-commerce sector, where I developed systems for automated image tagging and visual search.

## PROFESSIONAL EXPERIENCE

### **E-Comm Innovations**

*Mar 2018 - Present*

Computer Vision Engineer

- Developed and deployed an image recognition system that improved search accuracy by 30%.
- Collaborated with UX teams to design an interface for visual product recommendations.
- Implemented deep learning models that increased user engagement by 25%.
- Analyzed customer interaction data to refine model outputs and enhance personalization.
- Conducted A/B testing to evaluate the effectiveness of visual search features.
- Prepared technical reports on system performance for executive reviews.

### **SmartVision Tech**

*Dec 2015 - Jan 2018*

Junior Computer Vision Engineer

- Assisted in the creation of machine learning models for product image classification.
- Participated in data preprocessing and augmentation to enhance model training.
- Collaborated with a team to implement a visual search feature that reduced customer search times.
- Tested and validated algorithms to ensure robustness and reliability.
- Contributed to the design of user-friendly dashboards for visual analytics.
- Maintained comprehensive documentation of development processes and findings.

## ACHIEVEMENTS

- Increased conversion rates by 15% through the implementation of a new visual search feature.
- Recognized as 'Employee of the Month' for outstanding contributions to product development.
- Presented project outcomes at the annual E-commerce Tech Summit, gaining industry recognition.
