

MICHAEL ANDERSON

LEAD COST ENGINEER

PROFILE

Accomplished Construction Cost Engineer with a robust background in infrastructure projects and a keen focus on financial analysis and cost optimization. Extensive experience in managing the financial aspects of complex construction initiatives, ensuring that all phases are executed within budgetary guidelines. Skilled in leveraging advanced estimation techniques and project management software to enhance operational efficiency and reduce costs.

EXPERIENCE

LEAD COST ENGINEER

Metro Infrastructure Group

2016 - Present

- Managed cost estimation for large-scale infrastructure projects valued at over \$100 million.
- Developed and implemented cost control procedures to monitor project expenditures.
- Collaborated with design teams to assess cost implications of design changes.
- Facilitated financial training sessions for project managers to enhance budget management skills.
- Prepared comprehensive financial reports for project stakeholders and executive leadership.
- Monitored procurement processes to ensure alignment with project budgets.

COST ANALYST

City Engineering Services

2014 - 2016

- Conducted detailed cost analyses for municipal construction projects, ensuring fiscal responsibility.
- Engaged with contractors to review bids and assess compliance with project budgets.
- Utilized advanced software tools to generate accurate cost reports and forecasts.
- Developed and maintained cost databases for future project reference.
- Identified and reported discrepancies in budget forecasts to senior management.
- Assisted in the preparation of grant applications with detailed budget justifications.
