MICHAEL ANDERSON

COST ENGINEER

Innovative Construction Cost Engineer specializing in sustainable building practices and green construction methodologies. Over 6 years of experience in cost estimation and project management within the residential construction sector. Expert in assessing environmental impacts and incorporating sustainable solutions into cost analyses. Proven track record of collaborating effectively with architects and project teams to develop eco-friendly designs that are both cost-effective and compliant with regulatory standards.

PROFESSIONAL EXPERIENCE

Sustainable Homes Ltd.

Mar 2018 - Present

Cost Engineer

- Developed cost estimates for eco-friendly residential projects, ensuring alignment with sustainability goals.
- Conducted life cycle cost analyses to evaluate long-term financial benefits of green materials.
- Collaborated with design teams to integrate sustainable practices into construction plans.
- Utilized tools such as AutoCAD and Revit for precise cost modeling and visualization.
- Presented cost-saving proposals to clients focused on sustainable solutions.
- Conducted market research to identify cost-effective sustainable materials and technologies.

EcoBuild Partners

Dec 2015 - Jan 2018

Assistant Cost Estimator

- Assisted in the preparation of cost estimates for green construction projects.
- Engaged with suppliers to gather pricing information for sustainable materials.
- Performed quantity take-offs and cost comparisons for various project bids.
- Supported project managers in tracking expenditures against budgets.
- Facilitated workshops on sustainable practices for project teams.
- Maintained documentation of cost estimates and project changes for audits.

ACHIEVEMENTS

- Led a project that earned a LEED Platinum certification, showcasing commitment to sustainability.
- Implemented cost-effective solutions that reduced project expenses by 10% without compromising quality.
- Presented at a national conference on the economic benefits of sustainable building practices.
