# MICHAEL ANDERSON

## LEAD SAFETY ENGINEER

I am an experienced Construction Safety Engineer with more than 12 years in the industry, focusing on infrastructure projects. My background spans various roles within the construction safety field, allowing me to develop a holistic view of safety management. I have a proven track record of implementing safety measures that significantly reduce incidents and enhance compliance with federal regulations.

## PROFESSIONAL EXPERIENCE

### **Metro Infrastructure LLC**

*Mar 2018 - Present*

#### Lead Safety Engineer

- Oversaw the development and implementation of site-specific safety plans for large infrastructure projects.
- Conducted safety audits and inspections, leading to a 25% decrease in safety violations.
- Managed a team of safety officers, providing mentorship and guidance on safety best practices.
- Collaborated with engineering teams to integrate safety into project design and execution.
- Facilitated safety training workshops focused on hazard recognition and risk mitigation.
- Developed and maintained safety documentation for regulatory compliance and internal reviews.

### **Nationwide Construction Services**

*Dec 2015 - Jan 2018*

#### Safety Analyst

- Analyzed safety data and trends to identify areas for improvement in safety protocols.
- Participated in incident investigations and provided recommendations for corrective actions.
- Assisted in the development of safety training materials tailored to specific project needs.
- Supported the safety department in ensuring compliance with OSHA and other regulations.
- Conducted safety inspections and provided feedback for continuous improvement.
- Engaged in safety meetings and contributed to the development of safety initiatives.

## ACHIEVEMENTS

- Contributed to a 25% reduction in safety violations across multiple projects through effective safety leadership.
- Recognized for excellence in safety management by receiving the 'Safety Leader Award' in 2021.
- Successfully implemented a safety management software system that improved reporting efficiency.
