

# Michael ANDERSON

## SAFETY ENGINEER

I am a passionate Construction Safety Engineer with over 6 years of experience in the commercial construction sector. My expertise lies in developing and implementing safety programs that not only comply with OSHA standards but also promote a culture of safety among workers. I have a strong background in safety training and risk management, having developed tailored training sessions that address the specific needs of different project teams.

### WORK EXPERIENCE

#### SAFETY ENGINEER

Premier Construction Group

2020 - 2025

- Developed site-specific safety plans for commercial construction projects, ensuring compliance with regulations.
- Conducted safety training sessions for workers, improving safety awareness and knowledge retention.
- Performed regular safety inspections and audits, identifying hazards and implementing corrective actions.
- Collaborated with project managers to enhance safety measures during site activities.
- Monitored the use of personal protective equipment (PPE) and maintained inventory levels.
- Provided support during safety meetings to discuss safety performance and improvement strategies.

#### SAFETY ASSISTANT

Safety First Contractors

2015 - 2020

- Assisted in conducting safety audits and inspections across multiple job sites.
- Participated in the development of safety training materials and resources for employees.
- Monitored compliance with safety standards and reported findings to senior safety staff.
- Supported incident investigations and documented findings for review.
- Engaged in toolbox talks to promote safety awareness among crews.
- Maintained accurate records of safety training and certifications for all personnel.
