As a dedicated Construction Safety Engineer with 5 years of experience in the residential construction sector, I have a strong focus on ensuring the safety of workers and compliance with safety regulations. My career began as a safety technician, where I developed a passion for safety and risk management. I excel at training employees on safety protocols and conducting site inspections to identify hazards.

## WORK EXPERIENCE

### Safety Engineer | Dream Homes Construction

Jan 2022 – Present

- Implemented safety plans for residential construction projects, ensuring compliance with local regulations.
- Conducted site inspections and audits to identify hazards and recommend corrective actions.
- Facilitated safety training programs for new hires and existing employees.
- Monitored the correct use of personal protective equipment (PPE) across job sites.
- Collaborated with project managers to enhance safety practices during construction.
- Maintained safety records and documentation for regulatory compliance.

### Safety Technician | Home Builders Inc.

Jul 2019 – Dec 2021

- Supported the safety team in conducting inspections and audits across various residential sites.
- Assisted in the development of safety training materials tailored to residential construction.
- Participated in daily safety meetings and toolbox talks to improve communication.
- Helped maintain records of safety training and incidents for compliance reporting.
- Monitored the use of safety equipment and ensured availability for all workers.
- Engaged with employees to promote safety awareness and gather feedback on practices.

## SKILLS
