- 📍 San Francisco, CA

SKILLS

- technology integration
- software development
- stakeholder engagement
- risk management
- user training
- project evaluation

LANGUAGES

- English
- Spanish
- French

EDUCATION

BACHELOR OF SCIENCE IN CIVIL ENGINEERING, STANFORD UNIVERSITY

ACHIEVEMENTS

- Increased user satisfaction ratings by 30% through effective training initiatives.
- Instrumental in achieving a 15% cost reduction through process optimization.
- Recognized as a top performer in digital transformation projects.

PROFILE

Innovative construction systems analyst with a robust background in integrating advanced technologies within the construction sector. Focused on enhancing project efficiency and ensuring the seamless adoption of construction management systems. With a strategic mindset, adept at transforming complex data sets into actionable insights that drive performance improvements. Demonstrated expertise in collaborating with stakeholders to align technological solutions with organizational goals.

EXPERIENCE

LEAD CONSTRUCTION SYSTEMS ANALYST

FutureBuild Technologies

2016 - Present

- Directed the development of a cloud-based project management application.
- Analyzed user requirements to enhance software functionalities.
- Coordinated with IT teams to ensure system reliability and security.
- Provided ongoing support and maintenance for deployed systems.
- Conducted market research to identify emerging technologies for adoption.
- Facilitated user acceptance testing to validate system performance.

CONSTRUCTION SYSTEMS CONSULTANT

Elite Construction Partners

2014 - 2016

- Developed comprehensive training programs for software implementation.
- Assisted clients in the transition to automated project workflows.
- Monitored project metrics to evaluate system effectiveness.
- Created detailed documentation for system processes and user guides.
- Collaborated with engineering teams to ensure system compatibility.
- Analyzed feedback for continuous improvement of software solutions.
