Michael Anderson

CONTINUOUS IMPROVEMENT MANAGER

Strategic Continuous Improvement Engineer with over 9 years of experience in the logistics and supply chain industry. I have a strong ability to analyze complex operations and implement effective process improvements that drive efficiency and enhance service delivery. My expertise in Lean principles and data analysis allows me to identify and eliminate waste, streamline workflows, and optimize resource utilization.

EXPERIENCE

CONTINUOUS IMPROVEMENT MANAGER

LogiCorp Solutions

2016 - Present

- Oversaw continuous improvement initiatives that led to a 30% reduction in logistics costs.
- Developed and implemented process mapping tools to enhance workflow efficiency.
- Coordinated training sessions for staff on Lean Six Sigma methodologies.
- Utilized data analytics to monitor supply chain performance and identify areas for improvement.
- Facilitated cross-functional teams in the execution of Kaizen events.
- Presented operational improvements to executive leadership, influencing strategic direction.

PROCESS IMPROVEMENT ANALYST

FastTrack Logistics

2014 - 2016

- Conducted process audits to identify inefficiencies, resulting in a 25% improvement in delivery times.
- Implemented a performance dashboard to track key metrics and enhance decision-making.
- Collaborated with IT teams to develop systems that improved inventory management.
- Trained staff on Lean principles and continuous improvement practices.
- Worked closely with vendors to enhance material flow and reduce costs.
- Presented findings and recommendations to senior management, driving strategic initiatives.
