- Lean Principles
- Data Analysis
- Project Management
- Software Development
- Team Collaboration

🗚 LANGUAGES

- English
- Spanish
- French

Experienced Continuous Improvement Engineer with a diverse background in the information technology sector, specializing in software development and process optimization. With over 6 years of experience, I have successfully led various projects aimed at enhancing operational efficiency and improving product delivery timelines. My expertise in Agile methodologies allows me to facilitate quick iterations and continuous feedback, which are critical in today's fast-paced tech environment.

💼 WORK EXPERIENCE

Continuous Improvement Engineer
2020-2023

Tech Innovations LLC

- Led Agile transformation initiatives that improved software delivery timelines by 30%.
- Facilitated retrospectives and workshops to identify process bottlenecks and implement solutions.
- Developed and monitored KPIs to assess team performance and project outcomes.
- Collaborated with stakeholders to streamline requirements gathering processes.
- Utilized data-driven insights to enhance product development workflows.
- Trained teams on Lean and Agile principles to promote continuous improvement.

Process Improvement Specialist
2019-2020

NextGen Solutions

- Conducted process assessments to identify inefficiencies, leading to a 25% increase in productivity.
- Implemented project management tools that improved collaboration among teams.
- Facilitated training sessions on process mapping and optimization techniques.
- Worked closely with QA teams to enhance testing processes and reduce defects.
- Presented improvement strategies to management, driving alignment on project goals.
- Utilized feedback loops to continuously refine processes and improve outcomes.

⭐ ACHIEVEMENTS

- Successfully reduced software development cycle times by 20% through process enhancements.
- Achieved a 15% increase in client satisfaction ratings via improved product delivery.
- Recognized for leading a team that implemented innovative solutions, resulting in a 25% boost in project efficiency.
